Research Interests: Machine Learning, Optimization, Genomics, and Statistics

Education

PhD	Stanford University , Electrical Engineering	anticipated 2019
MS	Stanford University , Electrical Engineering GPA: 4.00/4.00	anticipated 2016
BS	Tufts University , Electrical Engineering GPA: 3.96/4.00 <i>Summa cum laude</i>	05/2014

Ongoing Research

Sparse estimation of neurexin isoform abundances

Three neurexin genes potentially underpin the wide diversity of synapses in the brain. The purpose of this project is to estimate the abundances of neurexin isoforms using single-cell RNA-seq reads by exploiting sparsity.

Professional/research experience

MC10, Inc., Cambridge, MA

<i>R&D Intern</i>	05/2014-08/2014
<ul style="list-style-type: none">Implemented machine learning and signal processing MATLAB algorithms to facilitate real-time and offline accelerometer data analysisCollaboratively optimized hardware-software interface	

MIT Lincoln Laboratory, Lexington, MA

<i>Electrical Engineering Intern/Co-op for Group 33</i>	06/2013-05/2014
<ul style="list-style-type: none">Developed MATLAB algorithms to intelligently extract trace from ionogram imageCreated graphical user interface in MATLAB to facilitate ionogram image processing	

Tufts Biomedical Engineering Department, Medford, MA

<i>Researcher</i> under supervision of David Kaplan, Ph.D.	09/2011-08/2012
<ul style="list-style-type: none">Designed and constructed gold circuits on silk scaffolds to control and detect neuronal signalsProcessed and analyzed neuronal signals using pCLAMP software	

Dana Farber Cancer Institute, Boston, MA

<i>Intern</i> under supervision of Myles Brown, M.D.	05/2011-08/2011

- Conducted experiments to define role of lysine-specific demethylase 1 in human prostate cancer

Teaching experience

Tufts Academic Resource Center, Medford, MA

Head Tutor

08/2012-05/2014

- Tutored introductory physics, introductory chemistry, calculus III, differential equations, and linear algebra
- Held large-scale review sessions, weekly office hours, 1-on-1 sessions

Honors and Awards

Tufts University

The Amos Emerson Dolbear Scholarship (\$1355.25)

04/2014

- One of two seniors chosen
- Given to seniors who have shown promise in the field of ECE

The Class of 1898 Prize (\$1983.91)

04/2014

- Awarded to one undergraduate from the school of engineering
- Given to students who, having completed at least two years at Tufts, have best demonstrated high scholarly ability and a wide range of intellectual competence

Howard Sample Price Scholarship in Physics (\$566.33)

04/2012

- One of six undergraduates chosen
- Given for outstanding performance in the introductory physics courses

Chinese Consolidated Benevolent Association of New England

CCBA Scholarship (\$2500.00)

12/2010

- One of five freshman from the class of 2014 chosen
- Given to applicants who demonstrate academic achievement, a history of commitment to their community, leadership potential, and financial need. Applicants must have a permanent home address in MA and be of Chinese descent.

Junior Achievement of Northern New England

Stephen G. Sullivan Scholarship (\$1000.00)

06/2010

- One of three Junior Achievement participants chosen
